

## **USE OF FDA APPROVED ENERGY-BASED DEVICES & THERAPIES**

It is the position of the NCEA that:

1. Estheticians shall be permitted to use FDA approved energy-based devices & therapies for esthetic procedures.
2. Such use shall be within their scope of practice as defined by the regulations of individual states, where such regulations exist.
3. Estheticians shall meet the training requirements for the use of such devices as defined by their individual licensing board or other regulatory agency.

*Disclaimer: The NCEA recommends that estheticians abide by Federal, State and Local Regulations.*
